

AIRMAIL

Hello-

The Airforwards Association takes our mission very seriously - to be an effective advocate for members and to provide information and education to the airforwarding industry. As such, in 2010, we continue our extensive national tour, visiting regional air cargo associations to provide information about regulatory and Congressional activities so all our members are prepared to face upcoming challenges. It is also an opportunity for the Association to learn more about the local issues impacting your businesses to make us more effective advocates on your behalf.

The Association believes it is critically important to have our existing members engaged in these local cargo events. As such, it is our hope that, by keeping you informed of where AfA has been speaking and where we will be in the future, we will see many of you attending these events and spreading the AfA message. It is our strength in numbers, creativity and cohesiveness that has assisted us in winning many battles and gaining recognition with policy makers, and only with your ongoing involvement can we continue to achieve success.

Next week, we have an informative event coming up in Los Angeles where our discussion will include recent developments from the TSA and Capitol Hill as well as what to expect from each in the upcoming year. We certainly hope you can attend and look forward to seeing you.

**AfA Executive Director Brandon Fried will address the
Los Angeles Air Cargo Association
on Thursday, January 14, 2010**

**Please consider attending this important event as recent TSA and
Capitol Hill developments will be discussed.**
